

Scanshare Workflow+ Cloud-Based Document Processing

The Future of Document Workflow Automation
Now Available as a Monthly Subscription

Introducing the new consumption-based model for Scanshare Workflow+, delivers enterprise-grade document capture, processing, automation, and secure storage through a fully scalable Cloud-Based Subscription Model.

No heavy upfront investment. No complex infrastructure. No hidden costs.

Just powerful document automation, paid monthly based on your image processing volume.

What Workflow+ delivers

Capture

Scan from:

- MFP devices
- Desktop scanners
- Web clients
- Mobile devices
- Inbound email
- Existing digital files

Process

Automated with:

- Smart OCR
- Barcode recognition
- Forms processing
- Zonal data extraction
- Workflow triggers
- Verification Workflows
- Smart document classification
- AI-powered summarization
- Automatic translation
- PII detection & redaction

Store

Deliver securely to:

- ERP systems
- CRM platforms
- DMS repositories
- Corporate file servers
- Cloud storage platforms
- Scanshare secure repository

Why this changes everything

Traditional document processing

- High upfront software investment
- Expensive server infrastructure
- Complex deployment and maintenance
- Difficult scalability
- Limited flexibility for growing businesses

Scanshare Workflow+ cloud model

- Monthly subscription pricing
- Consumption-based billing by image volume
- Multi-tenant SaaS architecture
- Rapid deployment and onboarding
- Unlimited scalability
- Reduced IT overhead
- Predictable operating costs

Built for modern businesses

Multi-tenant cloud infrastructure

One platform. Multiple organizations. Complete separation.

Each tenant include:

- Users
- Workflows
- Clients
- Integrations
- Storage resources
- Permissions
- Security policies

Perfect for:

- Enterprises
- Shared service centers
- BPO providers
- Managed print providers
- Multi-site organizations
- Document service providers

Subscription-based pricing

Volume of images processed

This means:

- Lower barrier to entry
- Easy budgeting
- True scalability
- Business growth without infrastructure limits

Whether you process 10,000 images or 10 million, Scanshare grows with you

Enterprise security included

Secured by design:

- AES-128 encrypted communication
- AES-256 encrypted repository storage
- HTTPS secure cloud access
- Active Directory integration
- Azure AD / Google OAuth
- Full User SSO support
- Authentication & Accounting
- Native billing and policy management
- Full audit trails and compliance support
- Your documents stay protected. always.

Ideal used cases

- Accounts Payable Automation
- Invoice Processing
- HR Document Management
- Healthcare Forms Processing
- Education Administration
- Legal Document Workflows
- Contract Verification
- Customer Onboarding
- Shared Services Operations
- Enterprise Content Management

Launching June 2026
